

## **Strategic Plan for Sustainability**

The Strategic Plan for Sustainability establishes the following immediate, intermediate, and long-term goals:

### **Immediate Goals:**

1. Define sustainability;
2. Increase awareness by promoting College's commitment to sustainability;
3. Benchmark current sustainability efforts through STARS;
4. Communicate what the College is currently doing via an online outlet;
5. Build sustainability into the campus tour and orientation; and
6. Assess the status of "sustainability" in the curriculum.

### **Intermediate Term Goals:**

1. Integrate sustainability into the campus culture;
2. Encourage and support student participation;
3. Expand inclusion of sustainability in the curriculum;
4. Develop methodologies for measuring achievements;
5. Increase sustainability outreach and partnerships with the community; and
6. Begin planning for a climate ready campus.

### **Long-Term Goals:**

1. Integrate sustainability deeply into the campus culture, curriculum and activities;
2. Become increasingly sustainable;
3. Begin implementing some aspects of the climate ready plan;
4. Reduce growth rate of energy needs by developing ways to generate alternative energy sources;
5. Reduce our ecological, carbon, transportation, materials and water footprints; and
6. Reduce VOC's and toxic materials on campus.
